

INDIAN SCHOOL NIZWA

Class : V ---- Ch.1- Globe: The Model of the Earth

Name - Worksheet

I	Choose the correct answer.
1	Two important tools to study the Earth are a)planets b)The Sun c)Globe and Maps d) The Universe
2	The shape of our planet Earth is a)Oval b)Spherical c) Triangular d)cone
3	Does the planet Earth appear blue in colour from space (true or false?) a) True b) False
4	Large extensive masses of land on the Earth are called as a)Oceans b)Continents c) Planets d) Jupiter
5	The Earth rotates along an imaginary line called the a)Axis b)Equator c)meridian d)Hemisphere
II	NAME THE FOLLOWING:
1	Imaginary lines that are at equal distance from each other. _____
2	The imaginary line around which the Earth spins. _____
3	It divides the earth into the Northern and Southern Hemisphere. _____
4	The latitudes and longitudes intersect each other at right angles and form a series of squares is called _____
5	The word Meridian comes from this Latin word. _____
6	The latitude of $66\frac{1}{2}^{\circ}$ S _____
7	The latitude of $23\frac{1}{2}^{\circ}$ N _____
8	Longest line of latitude which lies at zero degree. _____
III	FILL IN THE BLANKS:
1	The _____ is a small model of the Earth.
2	The two endpoints of the axis of rotation are called the _____
3	The _____ is an imaginary line that circles the Earth midway between the poles.
4	The Equator divides the Earth into two equal halves called the _____
5	There are _____ degrees of latitudes in all.
6	The _____ decreases in length as you move from the equator to the Poles.
7	The _____ run from the North Pole to the South Pole.
